

EXPLANATION OF SCORE CARD POINTS

HALF POINTS TO BE USED IN SCORING IN THE EVENT OF A TIE

CROWN: -- three rounds. Horse plowing 6 furrows. Tractor plowing 12 furrows.

Split - all sod, weeds, etc., cut so that no uncut area remains under crown furrows.

Straightness and uniformity - all furrows in the crown to be straight and uniform and to CONFORM TO THE REST OF THE PLOWING.

SEED BED:

Firmness -- the furrows should be firm against one another so that they do not break down or collapse.

Packing or closeness - the furrows should be well packed and closed with no openings between furrows.

Depth - should be as specified. Three points off each 1" shallower than specified minimum. Depth should reflect the type of soil to ensure the best seed bed.

FINISH:

Straightness and Neatness - finish should be straight and free from loose soil, weeds, etc.

Depth and Width - depth should not exceed the average depth of plowing in the field, the complete sole furrow should be lifted.

GENERAL APPEARANCE:

Burying Grass and Stubble - all grass, stubble and weeds must be completely buried.

Straightness and Uniformity of Furrows - all furrows should be straight and of uniform depth and width, and must conform to each other.

Shape of Land - the proper relationship of crown to body of land to finish.

Ins and Outs -- all soil inside of scratch furrows should be turned with a minimum amount of the head land being disturbed by the plow.

THE COMPLETE LAND MUST BE PLOWED KEEPING IN MIND SOIL AVAILABILITY

A CONTESTANT MAY BE PENALIZED FOR ANY OF THE FOLLOWING INFRACTIONS:

- | | |
|---|--------------------------|
| 1. finishing the wrong way | — penalty 10 points |
| 2. not completing the land allotted for plowing | — penalty max. 10 points |
| 3. damaging neighbouring contestant's plowing | — penalty max. 10 points |
| 4. two wheel marks on the land | — penalty 2 to 5 points |
